EXPERIENCE

- **Codsoft** *Remote*
Intern, Front-end Web Developer Aug 2023 - Sep 2023
- **Talant Cubicle** *Remote*
Intern, Front-end Web Developer Jul 2024 - Aug 2024

PROJECTS

- **Edu Wallet Social Media**
Full Stack
 - **Website:** Developed Edu Wallet, a social site designed for students to work as a freelancer by sharing trivial task and doing them. Integrated features includes posting work, requesting work, like, comment, profile follow/unfollow and user authentication.
 - **Tech Stack:** React Js, Material UI ,Node js , Express js, MongoDB
- **Group Expense Management Platform**
Full Stack
 - **Website:** Developed a full-stack web application that allows users to manage group expenses seamlessly.
 - **Features:** Friend and Group Management: Users can add friends and create groups to keep track of shared expenses. Transaction Tracking: Within groups, users can create transactions. Each transaction card displays the members involved, how much money is owed, and to whom. Payment Integration: Users can settle debts directly within the platform, simplifying the process of balancing shared expenses registration, browsing products, wishlisting and ordering
 - **Tech Stack:** MongoDB, Express.js, React, Node.js
- **Multi-user Task Management App**
Full Stack
 - **Website:** Created a multi-user task management app where users can view and manage their tasks by creating, reading, updating, deleting tasks, Organizing tasks by categories, and assigning tasks to other users.
 - **Database:** Utilized Firebase Realtime Database to provide instant task updates across all connected users.
 - **Tech Stack:** Next Js, Bootstrap, Firebase

SKILLS

Programming Languages: C, C++ (DSA), Java
